PROFIL

Junior Full Stack Web Developer with training in web development and experience in real and freelance projects. I work with technologies such as React, Node.js, SQL, and JavaScript. I participated in the development of web applications and e-commerce platforms, with a strong focus on backend while also handling frontend tasks. Proactive, self-taught, and results-oriented, with strong teamwork and problem-solving skills. English level: B2.

EXPERIENCE

Freelance Full Stack Web Developer — Jan 2024 – Present

Design and development of websites and landing pages. Frontend development with React and CSS. Backend development for contact forms and basic APIs using Node.js and Express. Project management, client communication, and delivery planning. Maintenance and optimization of existing websites.

Administrative Secretary – Estudio Jurídico Sura — Mar 2025 – Dec 2025

Administrative task management, document organization, client support, and query follow-up. Experience that strengthened organization, responsibility, and communication skills.
